

# Day Care

## Utah's Moderate Risk Phase Guidelines

### Moving to orange

A color-coded health guidance system has been developed by the State of Utah to guide health behaviors for individuals and businesses. Each level of the dial is guided by a rigorous measurement system which can be different by each region, county, city, or community.

#### Enhanced cleaning and distancing protocols. No symptomatic children.

- Follow all employer guidelines (see below)
- Enhanced cleaning and disinfecting
- Encourage children to be 6 feet apart as much as possible
- Groups must be restricted to groups of 20 unless a wall can physically separate each group
- Limit mixing the groups of children (keep in separate rooms, allow on the playground at different times)
- Curbside drop off and pick up
- All individuals must wash hands with soap and running water upon arrival
- Don't use toys that can't be washed and disinfected
- Children and staff should stay home if they're sick
- Children and staff are screened for symptoms
- If there is a confirmed case, facility must be closed and alert local health department
- All high-touch surfaces should be cleaned and disinfected after each use (e.g., toys, keyboards, desks, remote controls)

#### General Employer Guidelines

Employers exercise extreme caution, with employees working remotely, evaluating workforce concerns, and enacting strategies to minimize economic impact. Businesses that necessitate on-site work should monitor workforce for symptoms and well-being.

- Employers take extreme precautions
- Provide accommodations to high-risk employees
- Employees and volunteers operate remotely, unless not possible
- Symptom<sup>1</sup> checking in business interactions

- Face coverings worn in settings where other social distancing measures are difficult to maintain; ensure that face coverings are available
- Make every possible effort to enable working from home as a first option; where not possible, workplaces comply with distancing and hygiene guidelines
- Minimize face-to-face interactions, including with customers (e.g. utilize drive-thru, install partitions)
- Where distancing and hygiene guidelines cannot be followed in full, businesses should consider whether that activity needs to continue for the business to operate
- Eliminate unnecessary travel and cancel or postpone in-person meetings, conferences, workshops, and training sessions
- Require employees to self-quarantine when returning from high-risk areas
- Employers evaluate workforce strategy and concerns and enact strategies to minimize economic impact
- Employers must not allow any individuals under isolation or quarantine to come to work at any time unless authorized by LHD

<sup>1</sup> Symptoms include fever of 100.4 degrees Fahrenheit or above, cough, trouble breathing, sore throat, sudden change in taste or smell, muscle aches or pains
